Another boring aesthetic pack. The gear is ugly, the shotgun is silenced, and that's about the only benefit.

Don't get it unless it comes with the game edition you bought.. More ugly trash. Great outfit after quite a while, perfectly Suited for the Jungle missions but it only gives bonus XPs for assault kills which is a drawback in my opinion, it looks great on Lara and looks amazing in Photo Mode.

The Shotgun which comes with this pack is incredible, a must have in Story Missions as it's silent and has a tremendous damage, not to mention great camouflage looks.
